OBJECTIVE

As a graduate from the University of Pretoria, I am passionate about transforming complex data into clear, actionable insights that drive meaningful change. I thrive in collaborative environments where curiosity, creativity, and technical expertise come together to solve real-world problems. Eager to contribute innovative analytical approaches and support strategic decisions with a positive impact.

EXPERIENCE

Data Scientist, Dotsure Insurnace Company DEC 2025 – Present

Full-time

Delivering executive-ready insights from large-scale data using advanced analytics, developing and validating statistical and machine-learning models to support forecasting, strategic direction, and clear visualization of results that I use to report back to my senior. **Value added:** This role enabled me to listen without rushing, and help teams feel understood and supported by being attentive to what they needed.

Business Analyst, Venwood&Baker Electrical June 2022 – July 2022

Part-time

Responsible for monitoring organizational processes, collecting relevant information, reporting to my supervisor, and analyzing data to identify improvements for efficiency. **Value added:** This role deepened my understanding of operational workflows and sharpened my ability to communicate insights clearly.

Performance Analyst, Hoerskool Eldoraigne Feb 2021 – Aug 2022

Contract

Integrated predictive analysis techniques to strategize game tactics and optimize player performance. Provided athletes with data-driven feedback to enhance their skills and team efficiency. **Value added:** Blended my passion for statistics and sports; saw firsthand how data-driven feedback builds stronger, more resilient teams.

Statistic and Data Science Tutor, University of Pretoria Feb 2021 – Mar 2023

Part-time

Helped students unlock their potential by offering one-on-one tutoring in mathematics and more specific statistics. Focused on strengthening weak areas using technology and visual aids. **Value added:** Loved turning tough topics into “aha” moments, and to see students dedicated to understand was and do better was enjoyable.

EDUCATION

Jeppe Highschool for boys, Johannesburg Jan 2015 – Dec 2020

Bachelor’s Pass APS: 32

University of Pretoria, Pretoria Feb 2021 – Nov 2024

BCom in Statistics and Data Sciences

- Key modules included: Stationary and Non-Stationary Time Series, Model Identification and Diagnostics, Forecasting, Statistical Inference and Estimation, Regression Analysis, Experimental Design, Multivariate Statistics, Supervised Learning, Financial Accounting, Advanced programming, informatics and Economics.
- GPA: 67.28% – 71.32%

University of Pretoria, Pretoria Feb 2025– Nov 2025

BCom Honours in Statistics and Data Sciences

- Focus areas: Multivariate Techniques, Regression Analysis (with coding), Text and Behavioural Analytics, Sampling Techniques, Simulation and Computation, Statistical Learning
- GPA: 63.00% – 66.76%

RESEARCH EXPERIENCE

Statistics field-Investigating the modality of distributions

Developed a robust contaminated lognormal model using the mode for skewed data with outliers, validated through simulation studies and applied to real-world financial data.

PROJECTS

- Designed and implemented an SPC system with automated monitoring and predictive analytics to optimize processes and improve quality.
- Created a customer segmentation and classification system using K-means, KDE, and KNN, enabling targeted marketing and actionable insights.
- Applied advanced statistical modeling, including nonparametric regression, bootstrap inference and nonlinear regression. Validated models with simulation and k-fold cross-validation, improving predictive accuracy on real data.

SOFT SKILLS

Skills:

- Team player.
- Communication.
- Time management.
- Punctuality.
- Collaboration.
- Work ethic.

TECHNICAL SKILLS

Analytical Skills:

- Statistical modeling.
- Machine learning techniques.
- Data validation and simulation.
- Data visualization.
- Time series forecasting
- Quantitative forecasting

Software Languages:

- Python
- SAS
- Rstudio
- Snowflake
- VisualStudio
- SQL
- Cyborgintell
- Latex

ACHIEVEMENTS

- Selected as one of Twenty students for Honours, based on academic excellence
- Awarded sports scholarship to Jeppe High School for Boys
- Received NSFAS bursary to complete my studies
- Captained provincial hockey team to national victory
- Played A-side U/21 provincial hockey at national level for two years
- Competed for three provinces in provincial hockey over a decade, captaining 6 of those years
- Represented University of Pretoria (Tuks) 1st team hockey (2023/2024)
- Boarding house prefect, Jeppe High School for Boys (2020)

LANGUAGES

- English | Native
- Afrikaans | Fluent

INTERESTS

- Forex trading: fuels my analytical mindset and sharpens my decision-making under pressure.
- Golf: teaches patience, focus, and individual discipline and allows me time to reflect on life.
- Field Hockey: allows me the opportunity to practise commitment to a team and be a part of something bigger than myself and my own goals.
